2014 GIS Day will be held on Wednesday, November 19, 2014, at Art Gallery (ARTS 2.03.04) at UTSA main campus.

GIS Day highlights and celebrates the transformational role of Geographic Information Systems (GIS) and Remote Sensing Technologies.

Join us to:

- Connect with others working on GIS research.
- Hear about GIS projects going on around campus.
- Learn about GIS related resources available to the UTSA community.
- Test out your GIS/Geography knowledge, play games and win prizes!
- Earn extra credit for the Geography courses you are taking this semester!

### Tentative Agenda

2:30 pm - 3:00 pm: Refreshments and Welcome

3:00 pm - 3:45 pm: Presentation session #1: Our goal is to have an hour’s worth of discussion that covers the wide diversity in GIS and Remote Sensing on campus and in community.

Dr. Rebecca Walter: GIS Applications in Urban Housing Development

Dr. Corey Sparks: Geospatial Visualization of Health Disparities

3:45 pm - 4:00 pm: coffee break

4:00 pm - 4:45 pm: Presentation session #2: Our goal is to have an hour’s worth of discussion that covers the wide diversity in GIS and Remote Sensing on campus and in community.

Dr. Sonia Alconini: GIS and Ancient Agrarian Technologies in the Andes

Mr. Henry Figueroa: GIS Applications in San Antonio CPS Energy

4:45 pm - 5:30 pm: Games and prizes!

Contact Dr. Nazgol Bagheri (Nazgol.Bagheri@utsa.edu) for more information or to volunteer!
