Create your own Story Map!

Everyone has a story to tell.
Harness the power of maps to tell yours.

When: Tuesday 11/07/2017 @ 2:30 pm
Where: COLFA GIS Lab @ MH3.03.08

About the guest speaker: Michael Beavers is a Solution Engineer with Esri where he focuses applying his product expertise to formulating web-based GIS solutions for customers in Local Government, the Aviation Industry, and in Maritime Ports. Mike has extensive experience in GIS management. He worked as a GIS Manager/Coordinator in the private sector and in local and regional governments. A military veteran, Captain Beavers was an Instructor Navigator in the Air Force. He flew as a commercial/airline pilot after his military service. Michael earned a B.S. from Texas State University, where he concentrated on cartography, photogrammetry, remote sensing and computer science. He earned a Master’s Degree in GIS from New Mexico State University.
