Your written comments are an important part of your course and instructor evaluation. Please provide feedback in the box below on aspects of the course and/or the instructor that were most effective or need improvement. Student comments will be provided to your instructor only after course grades have been submitted. The instructor may, but is not obligated to, share these comments with others or include them in any evaluation process.

- By far, Dr. Fernandez's Class has been one of my best educational experiences ever, he is a great professor, and is really helping to make a difference in this world. He inspires me to be a great clinician in my future.

- Dr. Fernandez is an excellent teacher! He is knowledgeable about this subject and uses a plethora of creative teaching techniques to integrate all of the course material. I have thoroughly enjoyed this class!

- Dr. Fernandez is probably the most capable instructor I've had at UTSA. There was absolutely no doubt that he was very knowledgeable about the subject and was always well prepared for class. His assessments were challenging while being practical and perfectly tied into our lectures and theory. He didn't offer any extra credit points, which although can be helpful, are a little juvenile and a nice change from other professors. He was always very well spoken and informative during his lectures. I would really like to take more of his courses. As for improvement, I guess I would like for the powerpoints to be posted on blackboard. It would be nice to go over them and make sure I didn't miss anything in my notes.

- Dr. Fernandez clearly has a passion for his work and his extensive history in the field gives him a unique advantage to teaching such an intricate course. His lessons and stories always ring true for the real world and create a sense of insight into our own lives. I have loved having him as a professor and hope to attain as much mastery as he can teach me to wield effectively in my future endeavors.

- Fantastic course and professor. The information is interesting and Dr. Fernandez articulates it very well. Very engaging class and I always look forward to the next class. By far my favorite class at UTSA.

- I absolutely love this teacher. VERY IMPRESSED

- I learned so much, and really enjoyed being taught by Dr. Fernandez.

- I was very satisfied being in this class. The class was taught very effectively. I learned a tremendous amount of information. I also enjoyed observing different scenarios in class and assignments. I would advise others to take this course

- I would have preferred pre done scenarios on which to write our term paper on or more freedom in the topic choice.

- I would strongly recommend this course to students interested in pursuing a career Clinical Psychology or to those simply interested in a course that encompasses its practical merits. Dr. Fernandez communicated the course material in a very effective and eloquent manner. Course objectives were clearly defined and explained. Participation was strongly encouraged during classroom discussions, but overall the process was effortless due to the interesting course material and classroom demonstrations. Dr. Fernandez was available during office hours and via e-mail to help with questions on lecture material, assignments, or with questions pertaining to the field.

- Loved Professor Fernandez the first time I had to sign up for this class even though I had heard it was tough. He has a hands on way of teaching that makes me feel like I'm actually doing something unlike other classes I've taken before. By far one of the best professors I've ever had at UTSA.

- The course was organized very well. Dr. Fernandez instructed us on a particular theory then gave us practical experience using the theory. It was engaging and thought provoking. I felt that this class was relevant for my future career goals in the field of Psychology. Definitely one of my all-time favorite classes.

- This case provided great insight about clinical psychology. Instructor was very knowledgeable.

- This course was one of my favorites this semester, all the projects and activities done in class really helped me understand why I wanted to keep on going and receive my masters degree in counseling.

- This was an amazing course and He was an amazing professor!! I feel like this course made me feel very prepared for the future and this instructor has an amazing teaching style. I wish i wasn't graduating in December I would love to take more courses with him.

- Very clear and concise about everything. Really helps the student learn and discover the information on their own, but guidance is always there. By far one the best classes I've taken at this university.
■ Wonderful professor. Made each topic interesting and his teaching method was easy enough to understand the material.

■ loved this class! the lectures sometimes could be a drag but often times very useful. I really enjoyed all the projects that were done in the class in order for the students to learn how to play certain techniques and therapies to their future in a clinical position.
