UNIVERSITY OF TEXAS SAN ANTONIO
College for Health, Community and Policy
Position Announcement

One Open Rank Position in Artificial Reality/Virtual Reality Human Performance Psychology

The new College for Health, Community and Policy at the University of Texas San Antonio (UTSA) invites applications for one open rank positions (Assistant, Associate or Full Professor) in Artificial Reality/Virtual Reality (AR/VR) Human Performance Psychology to begin in Fall 2020. This is part of a cluster hire that includes faculty in computer science, applied engineering and learning and instructional design. Applicants must have a Ph.D. in psychology or a related field and be able to teach undergraduate and graduate psychology classes. Apply at https://jobs.utsa.edu/postings/13903

Full and associate level applicants must have an outstanding record of scholarship, publications and external research funding in the area of AR/VR. First-time assistant professor would be "should strong promise". The Psychology Department houses a Master’s degree and PhD in experimental psychology with a health emphasis.

UTSA is seeking applicants in AR/VR Human factors/Human Computer Interaction and relationships with health. Faculty hired in this cluster are expected to work collaboratively in their research and grant activities.

All applicants must hold a Ph.D. and demonstrate teaching excellence in psychology and willingness to provide service to UTSA. Successful candidates will collaborate on research and grant applications with faculty in other colleges, departments, and UT Health San Antonio medical school. Teaching responsibilities include two courses per semester in the candidate’s specialty area. Other responsibilities include, but are not limited to, advising and mentoring undergraduate and graduate students (masters and doctoral); active research program that is funded by external grants and serving the University, profession and community. Tenure is contingent on Board of Regents approval. Salary and supporting start-up package are competitive and commensurate with qualifications and experience.

All information and application materials must be submitted electronically through https://jobs.utsa.edu/. Applicants should submit the following items electronically:

1. Letter of application that documents evidence of scholarly publications, funded research, teaching experiences, and qualifications for the position;
2. Current Curriculum vita;
3. A research and teaching statement, which includes discussion on the role diversity and inclusion plays in an academic environment;
4. Three samples of published scholarly work;
5. Names and contact information for three references who will provide a letter of recommendation upon request;

Application Process: Applicants must submit their full application package via the respective link to each position. Review of applications will begin October 15, 2019 and will continue until the position is filled. For general questions about the position contact Dr. James Bray at james.bray@utsa.edu or additional information on this Cluster Hiring Initiative, please contact:
UTSA is a diverse, Hispanic Serving Institution and over half of the student population are first generation college students. Successful candidates must have the ability to work with a diverse urban population and be sensitive to the education needs of such students. Demonstrated intellectual contributions linked to diversity, inclusion and/or inclusive excellence may include: experience in multicultural, diversity and power and privilege practice, demonstrated experience successfully teaching, mentoring, and advising diverse, underserved students, including students of color and non-traditional students.
