

*Please note that CAR/Legacy is not on the Main Campus area of UTSA. We are on what is called the West Campus.

From IH-10

If you take the UTSA Blvd exit, follow it until almost the end. Turn right at the light on Babcock Rd, follow it to Loop 1604, turn right on the frontage road and then follow the directions given for Loop 1604.

From Loop 1604

Coming from either direction, take the Babcock Rd exit. When coming from the east, use the turnaround so you are once again headed east on the frontage road. The entrance to UTSA is the very first right turn after the light at Babcock- it is NOT marked as UTSA, but you will see the dorms in front of you when you enter. This is **Sam Barshop Ave**.

Enter the campus and go straight through the 3 way intersection. Go past the Tobin Lab parking lot, to the first right turn onto **West Campus Road**. You will see a building presently under construction on the right-hand side and the dorms on the left. As you turn right onto **West Campus Road**, CAR/Legacy will be straight ahead in the distance, a long, low tan warehouse with vertical windows with a sign reading "Center for Archaeological Research". Refer to the arrows on the map below. Our building is labeled as CAR

School buses can drop children off in the CAR/Legacy parking lot.

The door in the middle of the CAR building is marked "Legacy Education Outreach". This is the door to use.

Print these directions out and bring them with you!

Call 458-4462 if you get lost and someone will help you.
